Definitely recommended!By David Sanchez.A friend of mine recommended me this ebook, I always talked to about how much I want to visit Russia, I have always thought it is an amazing place to go on vacations, meeting the land where Europe meets Asia is one of my dreams, now thanks to this ebook I know which places would be the best to go, since I don't speak any Russian it would have been a little hard for me to know where the good locations are and how to get to them, one of the most inviting places this ebook showed me is the "Izmailovsky Market" in Moscow, it really sounds interesting and nice for getting Russian's souvenirs to my friends and family, also I'm highly fascinated and hoping to visit the "Lake Baikal" being this the deepest lake yet know in the entire world, Russia really offers a lot of amazing and beautiful places to go and after reading this ebook I know which places i should go.0 of 0 people found the following review helpful. I liked this book because in my caseBy Alberto Eloy PetitI bought this book because I go to Russia next year. I liked this book because in my case, I'm going to Russia with plans to know the country, I want know about their culture and tourist attractions. In the book are some natural places that I would like to know, as the Golden Mountains of Altai, Lake Baikal and the Kungur ice cave. The book helps you to decide what are the best places to go shopping, and the best hotels to sleep, something very important. I give four stars to the book , because the book does not have the exact addresses of these locations, and that is something very important for a tourist. For example the addresses of the hotels.
