Villagran I bought this book over a year ago and it was dated then given all that's happened to real estate but I think I would have preferred it if the writer focused on the 20 - 25 places in Spain that offered something unique - so some big cities, ie. Barcelona, Madrid, Valencia and then a handful of those cities somewhat less known but comparable in size and so on. My interest is the northern Mediterranean coast from 150 miles south of Barcelona to 100 miles north but I would have liked more

information on some of the key cities in that range. There are many many smaller communities surrounding these centers and maybe less time could be spent on them. Still of greatest concern is how dated the book is - a revised updated version would be great!0 of 0 people found the following review helpful. Great to get a feel for SpainBy Debbie Jenkins NativeSpainA whopper of a book and don't you just love the cover? In this second edition Joanna Styles takes you on a tour of the whole of Spain helping you choose a place to buy. The cartoons are great fun (as always from Survival books) and the content is, as you'd expect from Joanna Styles, comprehensive.0 of 0 people found the following review helpful. And after where do I buy.....what do I buy?By John WolfendaleThis book will really help you gather your thoughts on choosing your location. What an exciting time! And if you want to be comfortable in your new home then consider building your own. It needn't be expensive, it can certainly be simple, and you get exactly what you want rather than something someone else has designed. Look at my profile for more on this.
