Bay being from the Bay area and I truely related to this story and since the Snark was being built by Jack London right before the 1906 quake. It amazed me and invariably he got taken advantage of by the various builders which led to some precarious sailing manuevers since they measured wrong on one side. Which Jack London didn't find out until out at sea. I could picture all the island stops and so enjoyed the old photos that were put into the Snark truly an interesting journey. It was interesting to me hearing of the staph infections were attacking the individuals when the crew would cut themselves and then end up with these sores they knew nothing about and how they had to heal themselves with virtually no medicines on board. This book is a captain's log which he wrote in daily. If your a sailor you'll love it or even if you've been exposed as I have you'll enjoy it, especially if you happen to be from the Bay area. I recommend it as an interesting and enjoyable read though at times I did feel he was just writing to keep his checks coming in to pay for his journey.Sebastopolian Reader0 of 0 people found the following review helpful. Describes the author's around the world attempt by sail, ...By RetroDescribes the author's around the world attempt by sail, which was inspired by the examples of his heroes Herman Melville, Robert Louis Stevenson, and Joshua Slocum.0 of 0 people found the following review helpful. Something to read at seaBy james weechGood book. Not overly exciting.

This book was originally published prior to 1923, and represents a reproduction of an important historical work,

maintaining the same format as the original work. While some publishers have opted to apply OCR (optical character recognition) technology to the process, we believe this leads to sub-optimal results (frequent typographical errors, strange characters and confusing formatting) and does not adequately preserve the historical character of the original artifact. We believe this work is culturally important in its original archival form. While we strive to adequately clean and digitally enhance the original work, there are occasionally instances where imperfections such as blurred or missing pages, poor pictures or errant marks may have been introduced due to either the quality of the original work or the scanning process itself. Despite these occasional imperfections, we have brought it back into print as part of our ongoing global book preservation commitment, providing customers with access to the best possible historical reprints. We appreciate your understanding of these occasional imperfections, and sincerely hope you enjoy seeing the book in a format as close as possible to that intended by the original publisher.

"One of the most adventurous voyages ever planned." About the Author Jack London (1876 1916) was a prolific American novelist and short story writer. His most notable works include "White Fang", "The Call of the Wild", and "The Sea-Wolf." He was born in San Francisco, California.
