**Mr Darryl John Hazell : The Dennis Fish No Bullshit Guide to Florence: A Five Day Rampage. (The Dennis Fish No Bullshit Guides) (Volume 2)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Dennis Fish No Bullshit Guide to Florence: A Five Day Rampage. (The Dennis Fish No

Bullshit Guides) (Volume 2):

The Dennis Fish No Bullshit Guide to Florence is the most irreverent, witty, informative and erudite book ever written on the subject, following on, hot on the heels from the success of the author's No Bullshit Guide to Venice. The rampage around Florence is a veritable tour de force and it is a vital companion for any tourist with an eye for adventure who wished to get the most out of a trip to this Renaissance jewel. Do Not forget Mr Hazell's infamously stupendous Dennis Fish Trilogy or his children's creation The Ticklypuff if you fancy a belly laugh.
