E.F. Knight : The Falcon On The Baltic before purchasing it in order to gage whether or not it would be worth my time, and all praised The Falcon On The Baltic:

3 of 5 people found the following review helpful. Classic sailingBy A. DoeringThis book describes the early stages of recreational yachting for people who are not aristocracy. This was written around the turn of the 20th century - a time when people generally did not go to sea recreationally. Interestingly, a part of this book describes a trip to an island off of the Netherlands that is no longer an island - the sea between it and the mainland was filled in and now is tulip farms. Also note how uttlerly foriegn the English characters feel when they are in continental Europe. They act like they are visitng Mars. Now it almost seems like England is closer to the Europe than it is to Scotland.
