Nicholas Luard : The Field of the Star: Pilgrim's Journey to Santiago de Compostela before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Field of the Star: Pilgrim's Journey to Santiago de Compostela:

1 of 1 people found the following review helpful. The Way with emotion By Jennie Begg I read this and was inspired. Nicholas does the now famous pilgrimage in several sessions in memory of his daughter - this is heart wrenching ly

interwoven through letters to the dead girl. So I planned and followed in his footsteps, from Le Puy in the Auvergne to Santiago, the French bit in 1992 and the Spanish in 2006. I was overwhelmed when I found the church featured on the cover but although I have since devoured many fiction and non-fiction books on *The Way*, and a very good movie, this book is the real winner.

Originally published in 1998 this is an account of a pilgrimage to Santiago de Compostela from Le Puy in France, completed in stages over 3 years by the author, his sister and a friend. Luard took to the road whilst reflecting on the imminent death of his eldest daughter and her life, friends and ultimate absence become interwoven into the text.
