**Oron James Hale : The Great Illusion, 1900-1914 (Rise of Modern Europe)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Great Illusion, 1900-1914 (Rise of Modern Europe):

10 of 11 people found the following review helpful. WonderfulBy Girl Friday ReaderFor serious and recreational scholars, this is one of the best books covering the fifteen year period before the Great War. Covering topics such as thought, economy, and the many crises that led to the "war to end all wars", it also covers the intimate details of the super-powers that a lot of books gloss over(unless this subject is covered based upon each country). The best thing about this book is that it is very readable.
