Both were good maps, but the Citi Plan map showed all the tram line route numbers, and since using the tram is so important to getting around in The Hague she found this map to be the most useful of the two, and did not use the Falk map. She also found this paper map to be more useful to her for getting around than Google Maps on her smartphone (although she used Google to find tram schedules). In short she called this map "a lifesaver". 0 of 0 people found the following review helpful. Five Stars By Cyndy Great size map.
