**Keith Foscett : The Journey in Between** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Journey in Between:

0 of 0 people found the following review helpful. Like being the Camino without the effort! By John McCarty The Journey in Between is the third book that I have read by Keith Foscett, I really ripped through the book at about the pace that Keith hikes. I forced myself to slow down on the final chapters much like the pilgrims who want the slow

down and savor the experience. I especially enjoyed reading about the relationships formed along the trail. I will begin Kent's book on the Pacific Crest Trail this evening. 10 of 0 people found the following review helpful. Great journey...By Alison D DAnother great read from the Camino de Santiago. In this book the author started his walk along Le Puy route (The Le Puy Route or Chemin du Puy in French is the most popular pilgrimage route in France. It starts near Lyon, in the town of Le Puy-en-Velay until Saint-Jean-Pied-de-Port where the Camino Frances commences.) Almost all of the other stories I have read about this pilgrimage, the people have started in Saint-Jean-Pied-de-Porte, so it was interesting to see what the french walk was like as well. I am always amazed by how different each persons experiences are on the walk, as they all go to the same places, and see the same things, yet each story is so individual and that is what the experience should be. It never gets old for me, as I think each of their experiences, makes me open my eyes to things as well.. They always seem to meet fascinating people, who help shape their experiences, give us their different views on what they see and I learn something new each time. This author had a very easy and likable way of writing, which made me feel as if I were part of the walk, and he was just telling me about his adventures, and that was fun. I loved living vicariously through his words. Here is a note that another pilgrim wrote, and which summed it up for the author, as he interpreted it for himself. "I have just begun to realize, that Santiago is only the destination" I cannot wait to read about his two other distance walks, which he did after this book. 0 of 0 people found the following review helpful. A Walk With Fozzie By Customer I've always enjoyed reading travelogues that care more about the experience than naming roads, towns, and schedules. Although Foskett documents the mechanics of his walk i.e. road, towns, and the occasional schedule, he successfully invites the reader along on his personal journey. Without the blisters and the backpack, I made the journey with him, supplanting my imagined journey with his. Furthermore, I was pleasantly surprise that he successfully avoided rough and offensive language and descriptions. Take the journey with Fozzie. Maybe you will find the fortitude to make your own journey, as perhaps I will.

A Number One Amazon Best Seller - Thousand of downloads - The first book from Keith Foskett. El Camino de Santiago, also known as The Way, is the fabled path that weaves through French and Spanish countryside for 1,000 miles to its hallowed destination at Santiago de Compostella. Thousands attempt to walk its entirety each year: some succeed, many fail. Keith Foskett thru-hiked the Camino to indulge his love for the outdoors and hiking but also, unintentionally, filled a void in his life which took him in a completely different direction. Along the way he made friends with fellow pilgrims from all over the world, all travelling for their own different reasons. He was assailed by new experiences and unexpected discoveries - from the pain of blisters and extremes of temperature to encountering kleptomaniacs, fake faith healers and being threatened with arrest in Spain for 'not sleeping'. This is the story of one man's walk, but it speaks to all who see life itself as a journey and are alive to the revelations that an escape to nature can bring. Written with insight, observation and a healthy dose of humour. As this book shows, it is rarely the start and the finish that count, but the journey in between. 'A thoroughly entertaining modern take on a well worn Spanish Trail.' - Spencer Vignes (The Observer). 'Not only does he have astute observations about the people, places and scenery around him, he is adept at translating those observations into words, often making me laugh or nod in understanding. This is a rare talent. Few authors can bring you to this level of understanding of life on the trail.' - Teresa Dicentra Black (Author - 'One Pan Wonders') 'An engaging, vivid and very personal account by a likeable author of a journey and an achievement that readers will find both enviable and inspiring.' - Ingrid Cranfield (Author - 'At Last Michael Reeves')

About the Author Keith Foskett has hiked around 10,000 miles in the last few years and holds a deep respect for the outdoor spaces of this world. He has written three books and contributes to various outdoor publications. In 2012 Keith was shortlisted for Outdoor Personality of the Year by the Great Outdoors Magazine and his second book - The Last Englishman for Outdoor Book of the Year. Partial to a decent bottle of Rioja, down sleeping bags and woollen underwear, he divides his time between walking, running and the odd cycle ride. He was born, and still lives in West Sussex.
