Andrew Kershman : The London Market Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised The London Market Guide:

3 of 3 people found the following review helpful. Excellent referenceBy Timothy V. WeloThis is a nice small book but packed with details about various London markets. I think it is very valuable to read before you go to any of these.

I carefully read the reviews of the markets have I visited and I think the comments are spot on.

Fully revised and expanded, *The London Market Guide* tells shoppers all they need to know to explore the street markets. The book also lists all the city's best car trunk sales. First, this guide will get you there, with details of bus, train, or tube routes to each market. Full details of every market are offered, explaining what you can expect to find and when are the best times to visit. Honest reviews tell shoppers what to avoid—warning is given if a market is more tackfest than treasure chest. More than 140 cafés and restaurants are listed for shoppers to eat, drink, and take a break after a hard day's bargain hunting. Lastly, for those interested in seeing the market from the other side, details are given for every market reviewed on how to get a stall.

About the Author Andrew Kershman is the author of *Bargain Hunter's London* and *London's Monuments*.
