Charles McKean : The Making of the Museum of Scotland before purchasing it in order to gage whether or not it would be worth my time, and all praised The Making of the Museum of Scotland:

0 of 0 people found the following review helpful. Five Stars By Jake Careful explanation of the thought that went into the design of a very exciting museum.

From awesome conception to the final wonder of delivery -- the Museum of Scotland project experienced a gamut of birth pangs in producing Scotland's millennium progeny par excellence. Alongside excellent visuals and photography, Charles McKean tells the architectural, political and logistical story of creating a museum for the twenty-first century. A significant book for a significant time in Scotland's history.
