Well, all old books have this smell but I didn't realize it would bothered me so much.0 of 0 people found the following review helpful. Kennan's bookBy MelissaGreat, very factual book about the most closed, secretive system in the world. It used to be so in the past, it is same now.2 of 3 people found the following review helpful. A good summary of the life and workBy A CustomerThis is a tiny book that talks about a very large one. This book is summarized into a foreward in many reprintings of Custine, and if you have read that, this is unnecessary. It's a good study of Custine's life, however by a biased source.

The Description for this book, The Marquis de Custine and His Russia in 1839, will be forthcoming.
