I am able to trace them back to the 15'00s there. From Nottingham they came to upstate NY where I live presently. It is well done and interesting. Villages are the very embodiment of Englishness. Honey coloured cottages from peaceful Cornwall communities; splendid thatched roofs sweeping over eaves and windows in the villages of Hampshire; half-timbering, flint and

limestone giving Suffolk hamlets their characteristic appearance; and limestone, sandstone and millstone grit giving a darker look to those of Yorkshire, Durham and Northumberland. This volume records the richness and diversity of the English village in photographs and commentary. Grouped by area and sub-divided by county, this is a celebration of the most beautiful villages of England.
