Martin Moran : The Munros in Winter: 227 Summits in 83 Days before purchasing it in order to gage whether or not it would be worth my time, and all praised The Munros in Winter: 227 Summits in 83 Days:

This is Martin Moran's account of his expedition to climb all the Munros in a single journey. Not only did he complete the trip and thereby become the first to do so in winter, but he also set a record for the fastest-ever completion of the Munros in any season. He describes the 1030 miles of walking and skiing, the 410,000ft of ascent and descent, the storms, snows and darkness of winter, and the terror of an avalanche and of scrambling down a mountain in pitch darkness and a howling gale. The book also gives practical advice on enjoying, and surviving, Britain's most challenging peaks, with a wealth of information on the technical problems presented by climbing and walking in winter conditions. Route-planning, preparation and back-up are also covered.
