Rachel Esner : The Netherlands (Blue Guide Netherlands) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Netherlands (Blue Guide Netherlands):

An excellent and comprehensive guide to the Netherlands, the seventh edition includes new maps and plans as well as event listings. Authored by a resident of Amsterdam, the guide offers insightful advice on touring the country and exploring historical landmarks and museums. 40 maps and plans, 30 photographs.

Sets the standard for travel guides. -- Sunday Times [London]
