We can agree that this actually a pretty good travel manual with neat things to do. If you read fodors and take its recommendations, you'll hit every tourist trap in every city. Blah. This actually gives lots of fresh neat travel ideas for stuff that is off the beaten path. Plus, it is well written, good pictures, easy to navigate. Hard not to like it. 3 of 3 people found the following review helpful. Beautiful gift! By S. A. I bought this as a gift for my husband before we started planning a European trip. It's a beautiful book with excellent photos. We would flip through and dream about going to each place. Now that we've gone to Europe and come back, we can

flip to the places we loved and reminisce or look at where to go next!2 of 2 people found the following review helpful. The book would serve beautifully as a coffee table bookBy MiriamBook was given as a gift to someone moving to Europe for a 4 month internship. The book would serve beautifully as a coffee table book, with gorgeous pictures and easy information inside. May not be as convenient for traveling, as it is rather heavy. Kindle version may be better for someone hoping to use while in transit.
