James Bentley : The Penguin Guide to the Dordogne (Penguin Handbooks) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Penguin Guide to the Dordogne (Penguin Handbooks):

The author lives part of each year in Turnac in the Dordogne, the region of France most visited by English tourists.

This book combines scholarly, literary, gastronomic and historical perspectives, but is designed primarily to be useful and immediately accessible to a visitor who might know little or nothing about that part of France. Chapters on history, food and wine, architecture and so on will be followed by a detailed gazeteer based on major tourist centres.
