MICHAEL MIDDLEDITCH (EDITOR) : THE PENGUIN LONDON MAPGUIDE (PENGUIN HANDBOOKS S.) before purchasing it in order to gage whether or not it would be worth my time, and all praised THE PENGUIN LONDON MAPGUIDE (PENGUIN HANDBOOKS S.):

Far more portable and much less overwhelming than "London A-Z," this mapguide contains everything a traveller in London will need. If I could only take one book to London, this would be the one. 13 of 13 people found the following review helpful. An Attractive Map Guide With One Major Flaw By James Paris We were returning from Greenwich tired and footsore. The LONDON MAPGUIDE indicated we could transfer to another bus to Paddington right on Russell Square. When we alighted, there were no layover stops for the elusive Bus #7. After tromping for ages around Bloomsbury, we gave up and hiked back past the British Museum to Oxford Street, where we knew we could get a bus. The flaw of this and all other map guides to London are the bus routes. The Underground is fun, but sometimes a bus is more convenient, and, as G. K. Chesterton wrote, the best way to see London is from the top of a double-decker bus. Even London Transport's "Travelling in London" folder doesn't do justice to the bus system. Granted, it is diabolically difficult to keep up with route changes, but if someone were to undertake it and do a more thorough job, the result would be a truly useful map guide. But don't let one complaint detract from the value of this otherwise outstanding guide. Because of the lack of bus information, most travellers take to the Underground and are quite satisfied with it. I still recommend THE LONDON MAPGUIDE and still would use it myself, if only for lack of anything better. 1 of 1 people found the following review helpful. The Best By Leslie This is without doubt the best and most user-friendly guide for London. We travel there frequently and lived there for several months and found it to be better than any other guide we used. Good size, good detail. We have lent ours out til they are rather worn. Wouldn't travel to London without it.
