Sara Alexi : The Piano Raft before purchasing it in order to gage whether or not it would be worth my time, and all praised The Piano Raft:

2 of 2 people found the following review helpful. A brilliant tale!By LK WoodallSara Alexi has done it again! There is no better virtual vacation than a Sara Alexi novel. The Piano Raft is a departure from the Greek Village series, but no less enthralling. As Neil undertakes the task of sailing his girlfriend's piano down the canals to London, we learn

about Neil as he learns about himself. Fascinating characters along the way lead him to a greater understanding of life, love, and his place in the world. A lovely story, and Sara's usual wonderful writing make the journey a pleasure for the senses. 1 of 1 people found the following review helpful. Another great adventure with Sara Alexi By MizChill The Piano Raft certainly landed me in unfamiliar territory. I learned a lot about canals and locks and traveling on English waterways, and ran into an old friend from another favorite Sara Alexi book. I did not recognize him at first, we've both changed so much, but it was great to know that he is doing so well. On the journey I met intriguing new characters, including a few very personable animals. Wouldn't be surprised if I bump into a few of them again, and some I'd really love to get to know better. Perhaps we'll consider boating as a leisurely way to travel the English countryside when planning the eventual trip to the UK. What a great way to really soak up the experience. My husband and I have been to Greece twice since we first began reading The Greek Village Series and can't seem to get enough of either! The Piano Raft is another fun, gotcha book from Sara Alexi. I could hardly put it down. But that's the danger of her books. I never cease to be amazed at the plots, characters, and settings that she so comfortably blends into tales that keep me tantalized. Ready for the next book Sara! Bring it on. 1 of 1 people found the following review helpful. Another Captivating Read! By Anna Sara never disappoints. Her tales draw you in and tie you to the lives of the characters in each book. The Piano Raft is no different. It is a story of a young man's journey to find everything he wants out of life, all the people along the way who help him to see outside himself, learn what he hopes to accomplish, as well as who he wants to have along with him in this timeless voyage. I highly recommend this book.

A new tale of discovery from international best-selling author SARA ALEXI The Piano Raft is an unforgettable, heart-warming story about love, a piano and a hand-built raft that will have you enthralled, laughing and sitting on the edge of your seat as you sail (precariously) upon the rivers and canals from Yorkshire to London. Neil, a disillusioned art student, wakes to find himself drifting down a canal on a raft, accompanied by a small fluffy dog, to the sound of his girlfriend's piano being played by a stranger. Through the fog of his hangover, he tries to piece together the events of the night before which brought him to this curious and unexpected situation, and to work out what on earth to do next. The current is carrying him swiftly on towards the capital, where Kim, the piano's owner, has recently started a new life. As Neil's journey continues, and whilst trying to conjure the courage to win Kim back, his story captures the hearts and imaginations of the country as locals in the towns he passes and national media alike follow this unlikely hero on his equally unlikely adventure. How will these extraordinary circumstances challenge and change a man whose life has been stuck in first gear, and who now needs to decide how far he will go for the woman he loves? The current is swift, and there's no turning back...
