enthusiasts everywhereBy Midwest Book ReviewFew today would dare go on a voyage in the seas on merely a canoe. It's nothing for others though. "The Rob Roy on the Baltic: A Canoe Cruise" is a reprint of John MacGregor's work originally published in 1867. The work advocates the Rob Roy canoe design, details his adventures in testing his designs on the field, and encourages sportsmen to follow suit and do the same. Sure to inspire canoeists a century and a half later, "The Rob Roy on the Baltic" is a choice piece for canoe enthusiasts everywhere.

John MacGregor's second major voyage in the Rob Roy canoe through Norway, Sweden, Denmark and northern Germany, with appendices including a description of the Rob Roy's construction.
