Juliet Stevenson : The Rome Tapes before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Rome Tapes:

1 of 2 people found the following review helpful. Not a tape to take to Rome By Brent Keis This Tape is more of a dramatic reading than tour. It is okay, if you are NOT going to Rome. But, if you are wanting a useful guide around Rome, this tape is NOT it. For those who live in the Red states, beware, the selection of some sites and the dramatic performances come from a worldview that is decidedly liberal European.

Bring along your Walkman for this unique "talking" tour of Rome that allows listeners to hear the sights, sounds and events of history at each of sixteen popular sites.

"Using drama, narration and music these new tapes take their listener, in a series of four tours, on a journey through 2,000 years of history, recreating at each of the capital's most famous monuments the events that marked them. Hand-in-hand with Juliet Stevenson and supporting cast you may wander the city in a mist of imagination." -The Times Weekend
