I used this map for two weeks...By Ian K.I used this map daily during a two week stay in Barcelona.It was indispensable.The Rough Guide map has a number of nice features. It shows the location of many locations of interest. Not only the standard tourists sites, but restaurants and hotels.The map is also accurate and detailed.The sterling feature of this map is that it is printed on tough material (some kind of plastic). So it could survive two weeks of being folded and unfolded without ripping.The durability of the Rough Guide maps is a huge selling point and I recommend them for any destination, not just Barcelona.The only thing that the map is missing is a map of the Metro which is the primary way to get around Barcelona.However, free maps are available at the offices that sell tickets at the major metro stations.10 of 10 people found the following review helpful. Wonderfully Useful MapBy ScottserMy wife and I spent 6 days in Barcelona and this map was great. While many teeny streets are not shown (including the one where we rented an apartment), to do so would probably expand the size of the map to the size of a barn.As it is, we navigated our way around perfectly with the map in hand. It shows the Old City in expanded view, details the subway system, includes outlying areas like Parc Guell, clearly labels and demarcates all the attractions and was indispensable.Best of all, it has a rain-shedding coating that allowed me to fold and refold and bend and generally torture the map endlessly and it's still in excellent condition and can probably be used for another 3 trips.Get it! You won't regret this purchase.5 of 5 people found the following review helpful. Barcelona, The Rough Guide MapBy Robert LataThe Rough Guide plastic waterproof map series provides a durable and easy-to-read product. The Barcelona map depicts different geographic areas at various scales, supplemented by not only an excellent street index but also recommendations for shopping, eating, drinking, venues and hotels. All in all, an outstanding pocket guide to fascinating Barcelona.

Packed with information, the maps are printed on both sides, on paper that is waterproof and virtually indestructible. The colours used for the mapping have been chosen after research into what works best in different light conditions, so Rough Guide maps are easy to read under street lights, a true night-and-day design. Each map covers the main area of the city on one side and an enlarged downtown city centre map on the reverse. A comprehensive street index and clearly marked one-way streets and pedestrianized areas make the maps ideal whether you're on foot, using public transport or driving.Designed to be tough and immensely practical, as well as amazingly good value, they forge a new standard in city maps.
