Owens Great for information on all the small towns. Print is almost too small, would rather the print be a little larger and it be in a 2 book set. 1 of 3 people found the following review helpful. Okay guidebook but others are better. By ljuI bought this kindle edition as well as the lonely planet and rick steves guidebooks (paper back copies). I found that it was not worth it on the kindle. There didn't seem to be a lot of maps to look at and very few pictures. I found the other 2 guidebooks to provide all the information I needed for my trip and that this one did not add much. If you were only going to choose 1 guidebook I would not choose this one. It will be nice to travel with since it is on my kindle and wont take up any more additional space.
