Worked in 2008 and using it againBy LDI compared this guide with others on my first trip to Vienna in 2008. It helped with metro and tram stops at Schonbrunn

Palace and within the Old Town. The maps of the metro lines and the street map that follows were great guides. Some off the "beaten path" locations were not in other guides. One fabulous church was the Dominikanerkirche. It was an intimate baroque church that was beautiful. The detailed description of the interior layouts of buildings that people like to tour helped me know where to spend my time and money. I am using this guide again to see places I did not have time for before. 0 of 0 people found the following review helpful.
