James Penrith, Deborah Penrith : The Scottish Islands - Skye the Western Isles before purchasing it in order to gage whether or not it would be worth my time, and all praised The Scottish Islands - Skye the Western Isles:

3 of 3 people found the following review helpful. Perfect book if you're visiting Skye By Katherine Ernst My husband and I are driving around Skye this summer, and so I wanted a guidebook. This book is fantastic! It has great maps, it has information about all of the areas of the island. I haven't read the sections on the other Scottish Islands, but the portions that involve Skye are great. Aside from any bit of travel information that you could need (i.e. what you should

bring, how you can get to places, where to stay/eat, etc.) there is also a lot of really great historic information about the various locations/sites.

Third edition of the most comprehensive guide available to Scotland's Western Isles, which as well as Skye include Lewis, Harris, Uist, Iona, Jura, Islay and Arran. These enchanting islands offer a rich variety of terrain and wildlife, from the stark beauty of the Cuillin mountains of Skye to the raging seas off the Butt of Lewis or the palm trees of Arran. Explains how to get the best out of a trip to the islands with descriptions of the best walks and accommodation, castles and blackhouses, the history and culture, the liveliest music, folk festivals and ceilidhs and the finest food and drink.

Fully revised with maps and photographs. --Caravan Club MagazineExcellent information on practicalities. --Which Caravan
