**Ann Bridge : The selective traveller in Portugal,** before purchasing it in order to gage whether or not it would be worth my time, and all praised The selective traveller in Portugal,:

1 of 1 people found the following review helpful. Charming Period PieceBy CustomerIn the post WW II era the wife of the British Ambassador goes out and about. A very unique view This was at a time when the 18th century was just ending in the this country. Rural Portugal was a place that time forgot.I loaned my copy of this book to two New Yorkers who went to the then undiscovered southern beaches. It was so very quiet that they lost their minds and my book.So I was very happy to get it back.If you want a complete guide to everything about Portugal this book has to be on your shelf. Not that you will have trouble getting all the books on this country as they are few and far between.The book is old and very out of date. But that is it's charm. Well that and the author's concern to get a proper cuppa tea.
