**Paul E. Richardson : The Spine of Russia** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Spine of Russia:

0 of 0 people found the following review helpful. Fabulous Book--A Must Buy!By M. NordbyeAn absolutely amazing Book of a 6000-km road trip north to south across Russia from the White Sea to the Black Sea,where the author/photographer visit over 20 cities towns and their local inhabitants that make up the backbone of the country.Richardson's stories are chocked full of history, interviews and many colorful adventures experienced while driving theirVolkswagen Polo, nicknamed Kukisvumchorr/????????????!... And Mordasov's photographs are bothexquisite and informative, capturing the reality of this compelling and extraordinary region.0 of 0 people found the following review helpful. perfect!By CustomerAs a Russian national I am glad there's something that depicts our culture with respect and admiration. In a world full of political controversy, this book is a pleasant example that cultural heritage and human spirit live, survive and differ in a rather more complex dimation, than many news outlets try to potray. Mikhail's excellent photography and Paul's exciting essays give an in depth look at the everyday life of our multi-ethnic and multi-minded community.0 of 0 people found the following review helpful. Five StarsBy The HancockA cool idea beautifully executed.

Russian and American journalists Mikhail Mordasov and Paul E. Richardson traveled 6,000 kilometers from Russia's northwestern corner in the Arctic to Sochi, in the tropical climes of the Black Sea. This bilingual coffee table book is

the gorgeous photographic journal of that epic road trip. It includes over 200 compelling images of Russians and Russian places met along the way, plus a dozen texts (in both English and Russian) on everything from business to education, from roads to fools. A museum quality hardcover photo book, *The Spine of Russia* is a vivid portrait of modern Russian life, and includes over 40 environmental portraits of "heroes" interviewed in depth by the journalists, each of whom was asked the timely question: "Do you consider yourself a patriot, and if so, of what and why?" (Their fascinating answers were all over the map...) Organized in a unique, non-linear style, *The Spine of Russia* allows readers to construct their own trip across Russia. This is truly a volume you will treasure for years to come. The perfect gift for a Russophile!
