**Johan Huizinga : The Waning of the Middle Ages: A Study of the Forms of Life, Thought and Art in France and the Netherlands in the Dawn of the Renaissance (A Doubleday Anchor Book)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Waning of the Middle Ages: A Study of the Forms of Life, Thought and Art in France and the Netherlands in the Dawn of the Renaissance (A Doubleday Anchor Book):

0 of 0 people found the following review helpful. Not for the casual reader.By Santa Barbara JoeThe writer's approach is off putting for most general readers. This book is meant for other scholars already versed in the Middle Ages and one wonders if one were well versed already, why the read? Mr. Huizinga makes many observations supported by long unclear proofs naming personages the average reader either never heard of or knows little about. The overall expression about the changing world view of the late Middle Ages and the impact of it on the culture is the highlight of the book and could have been accomplished in far fewer words. I cannot recommend the book except to the very accomplished scholar who would read it to dispute some of the author's conclusions.3 of 3 people found the following review helpful. A classic, over and over againBy Susana CondeJust as interesting when I read it sixty years ago as now. A good reminder that sometimes original thought remains original over time.0 of 1 people found the following

review helpful. Good service. Book was ponderous as expectedBy Colorado Book LoverGood service. Book was ponderous as expected.

A study of the forms of life, thought and art in France and the Netherlands in the fourteenth and fifteenth centuries
