Marianne Mercer : The Wienerschnitzel Diary before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Wienerschnitzel Diary:

She doesn't speak German, and she's never lived overseas, but when offered an opportunity by her company to live and work in Vienna, Austria for six months, Marianne enthusiastically accepts. On her own for the first time in years, and far away from family and friends, she must learn to adapt to new places and cultures. Everyday is an adventure logged

in her online journal, a blog called *The Wienerschnitzel Diary*. Follow Marianne as she falls in love with a city, its people, and history; and as she takes several unexpected side trips to places she never in her wildest dreams thought she would see.
