**From Skira : Thyssen-Bornemisza Foundation Villa Favorita: Guidebook** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Thyssen-Bornemisza Foundation Villa Favorita: Guidebook:

This is a guide to the Thyssen-Bornemisza Foundation of Villa Favorita in Lugano. The Foundation's collection includes masterpieces of 19th- and 20th-century American painting and European and Soviet Avantgardes. Works range from the Hudson River School (Bierstadt, Church, Cole) to the major American Expressionists (Hawthorne, Hassam, Wadsworth, Thomson), to the periods of Cubism (Leger), German Expressionism (Nolde, Schmidt-Rortluff, Schiele), the Russian avant-garde (Larionov, Malevich), the Dada and Surrealist movements (Man Ray, Ernst), up to

Action Painting (Pollock) and Hyper-realism (Estes). This brief guidebook displays the new installation of the Foundation and features a section devoted to the sculpture and old master paintings belonging to this collection, as well as an essay on the history of the Villa Favorita and its gardens on the shores of Lake Lugano.
