It seemed to have good information.3 of 3 people found the following review helpful. Hip BookBy Elise HaladynaIf you're going to bring only one book with you, this is the one! Unlike many of the other guide books, the restaurant suggestions were actually good. I spent a few months in

Barcelona and had several books with me, but in the end, this was the only one worth using. I've found many guide books to be aimed at the collegiate set or the elderly. As a twenty-something looking for hip bars, good restaurants, and insider tips, I found this to be the most helpful. It also has all the info you need about museums, sights, transportation, hotels, etc.0 of 0 people found the following review helpful. Barcelona BibleBy matthew s connorsHaving just returned from a trip from Barcelona with this book firmly anchored in my side bag, I can attest to how spot-on its recommendations were all about town. From bars to cafes, museums and parks, architecture to paella, this guide will give you the info you need. The only downside is a few out-of-date entries, and a map that's often confusing. Pair this book guide with a Streetwise and you can't go wrong...

Keeping pace with one of the Mediterranean's most dynamic cities, the Barcelona Guide has been fully revised and updated by insiders of the Catalan capital. With detailed information on the city's latest architectural projects, history, sights, star restaurants, budget cafes, after-hours clubs, dancing, festivals, and shopping, and on trips out of town to the hills, the cava cellars, and beautiful beaches, the guide equips any traveler with the means to absorb Barcelona's fascinating culture.
