**From Time Out : Time Out Rome (Time Out Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Time Out Rome (Time Out Guides):

A delight for old Rome handsBy Critic in-waitingI have been to Rome a number of times, so I find the Time Out book helpful with details on various neighborhoods and sites written by people who clearly know and love art and architecture. And bravo for pulling together the walking tour of Caravaggio's masterpieces. I've spent hours with other guide books and maps figuring out what they've summarized in

a page. The maps are excellent with clear indications of locations of recommended hotels, cafes and restaurants. But given how much there is to see, if I had never been to Rome before, I might have trouble figuring out where I really wanted to go given the way the book is organized. The only guidance is a short "Rome in 48 Hours" summary in the front. 0 of 1 people found the following review helpful. Rome time out review By Virginia Youssef This collection of time out is my favorite guide for any new city I might visit, I find the book easy and very beneficial, maybe it just needs more hotels to be listed as most hotels mentioned are extremely expensive.

Written by local experts, Time Out Rome provides extensive coverage of the major sights — and then goes much further. Featuring everything from born-again trattorie to the burgeoning aperitif trend, it offers visitors the chance to experience the Eternal City as the Romans do. History in Rome is not confined to museums, basilicas and galleries — it tumbles out everywhere. And though the city is reassuringly compact, this does not stop the cultural onslaught from being utterly bewildering and exhausting. While some travelers may have to face the fact that they probably won't see everything, it is also important not to shut oneself up inside all day looking at collections and sites or you will miss all that the outdoor scene has to offer. Time Out Rome helps travelers navigate through the cobblestone streets, so that they can eat, drink and shop like the natives. Suggested side trips out of town are also explored.

"...fresh, reliable... a comprehensive guide with something for everyone." Italian Magazine "Selected as best Rome guidebook" The Sunday Times "Time Out guides are our favourite city guides, and the first ones we pack when we're off to Italy. easy to navigate, extremely informative and full of inspirational photography... essential travelling companion if you're on your way to the Italian capital. GBP13 couldn't be better spent." Italia
