From Time Out : Time Out Shortlist Barcelona 2008 before purchasing it in order to gage whether or not it would be worth my time, and all praised Time Out Shortlist Barcelona 2008:

1 of 1 people found the following review helpful. Merely a shorter version of the more useful book By Globalaza The Shortlist series are merely a physically smaller, more concise, version of the incredibly useful and informative TimeOut series. It has many of the same references for lodging, bars/clubs, getting around and the like just in a more

truncated package. I would not buy both, as most listings are the same word-for-word. I would make the assessment of how much time you have in a particular city and get the short version based on a more limited amount of time. As with all Shortlists, it has key info on addresses, websites, whether credit cards are allowed, hours of operation, and costs. I would like to see better and easier to follow maps, however. TimeOut travel guides are still the most comprehensive, helpful, colorful and informative guides out there. They FAR surpass Fodors, Frommers, Lonely Planet, Berlitz, or Wallpaper guides. If you find yourself making a quick trip through an unexpected city, get a Shortlist. If you are planning in advance and want a single guide that can assist your entire trip, get a regular TimeOut.

Perfect for frequent visitors or quick trips, this compact guide features the up-to-the-minute information on the best places to eat, stay, sightsee, shop, and party. Spanish and Catalan vocabularies, plus a menu glossary, help travelers make the most of Barcelona's fabulous restaurants and tapas bars.
