By Decorating Fanatic
I bought this because I'm planning a trip to London next year. I'm familiar with the DK Eyewitness series, I own many of them, this did not disappoint. I prefer DK to Fodor's even Frommers most of the time. They all give detailed reviews of activities, hotels, restaurants etc. However, the edge that DK has is the awesome photography. It is great to see pictures of the places that they are describing. It helps me to narrow down the places that I want to visit. I'm a fan of DK travel series and will stick with them the next time I need a travel book.

By S. E. Miller
I read and marked this book for months before our trip. Then I carried it around London for the few days we were there. The map was incredibly accurate and the underground map was very helpful also. Great tips, thorough reviews of places, helpful info on costs for admission and food. I found this book indispensable!

By Lynn
I liked this book.....handy little size. Some good info..BUT why on earth don't they include the bus/underground/ and overground transportation lines that are near these sites??? That would be SOOOOOOO helpful. It is really a missing piece that we NEEDED!
