Reid Bramblett, Jeffrey Kennedy : Top 10 Rome (Eyewitness Top 10 Travel Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Top 10 Rome (Eyewitness Top 10 Travel Guide):

By Jack Limpet
The info is up to date, and well presented, and there was plenty in it for a short city break (we stayed 5 days, and there was more than enough for us), may need more in-depth info if you are more information hungry or staying longer though as content is a little superficial at times. The reason this is a 3 and not a 4 is that the maps don't have all the roads marked, and when you're walking around the city (which is a must!), it's difficult to find your way around with them (especially in Trastevere where we failed to find any of the restaurants recommended in the book, because their map was just useless!) fortunately we found a great restaurant as we wandered around in circles looking for somewhere particular! Our hotel gave us a free walking scale map which had each street marked, and complimented this great guide beautifully. Some of the sights are repeated at several points in the book, so if, like me, you want to annotate the book with personal comments, you'll have to decide which entry to mark up, is it because it's one of the top 10 sights, or one of the top 10 churches?

By Nick
I'm of the theory that you're best served with two travel books - a pocket sized, quick reference book and a larger, more indepth book. The pocket sized book is the one that fits into a cargo pants pocket or a jacket pocket.
I got back from a trip to Rome and while everyone had their tomes from Lonely Planet or Fodor's out at dinner, the DK Top Ten Rome book was the one that was taken from my hands and passed around. The foldout map helps a lot and as a result, I was the navigator as we walked the streets of Rome.
If you have an infinite amount of time to see everything in Rome, then you'll need a great book to cover everything. If you're doing a multi-city Italian tour and only have a few days in Rome, it's good to have a book like this to keep as a quick reference guide.

By Pat Krave
I am starting to get a collection of these "Top 10" books. They have just what you need to start your adventure. They not only have the top things to see, but the top 10 in those places. Also restaurants, nightlife, lodging, etc. It has great maps of the area and transit where applicable. It is also easy to carry around. I use sticky tabs at the top to plan out OUR top choices. I recently chose the book over the kindle version because I like to see the bigger picture and my sticky tab method.
