**Marc Bennetts : Top 10 St (DK Eyewitness Travel Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Top 10 St (DK Eyewitness Travel Guide):

Poor kindle quality and poor informationBy VictorThe layout of the publication (for a classic kindle) at least is terrible, as if a novice Word user played around and improvised some information and pictures on a page. This makes navigation and reading through it a terrible experience. If that was not enough, some essential information is missing from major tourist attractions (e.g. the cathedral in the city's fortress houses the tombs of most Russian tsars, including the whole family of the last tsar, but this is not mentioned at all!!). I have used Top Ten guides from DK before, in print format, and they are usually excellent, but this one is a big failure...1 of 1 people found the following review helpful. Better than the Other One!By KezzaWe always buy the DK Eyewitness Travel Guides - they are so much better than the Lonely Planet guides, which I find are like reading a telephone book. The Eyewitness books are just much easier to follow, details such as opening times of museums etc are so much easier to find. All round, much easier!!
